

## About URINOMICS 2019

We are hereby announcing one of the major events in 2019 in Europe related to Urine and Nephrology: the IV—International Caparica Conference on Urine Omics and Nephrology 2019—URINOMICS 2019. This congress will be held from the 2nd to the 4th of September of 2019, in Caparica, Lisbon, Portugal.

The URINOMICS 2019 is a great opportunity to get the latest updates on urinary proteomics, metabolomics, genomics and DNA, OMICS in nephrology and the emerging technologies in nephrology. The idea is to join researchers from the different areas to discuss, learn and to initiate new collaborations with each others in an extraordinary and familiar environment.
