

# 30<sup>TH</sup> BERLIN DIALYSIS SEMINAR

01. - 02. DECEMBER 2017

The “Berliner DialyseSeminar” is a traditional nephrology congress which has taken place in Berlin since 1988. The congress focuses on current themes of renal replacement therapy and diseases of dialysis patients.

Our target is to inform not only consultants specialising in nephrology but also physicians in further education, physicians in other fields and nursing staff about interesting and topical issues.

Roughly 1,000 nephrologists regularly take part in the Berliner Dialyse-Seminar in Maritim Hotel Berlin. This year, the Berliner DialyseSeminar has gone international. Interpreters will simultaneously translate all German lectures into English.

The congress is sponsored by Fresenius Medical Care Nephrologica Deutschland GmbH, Baxter Deutschland GmbH and Amgen GmbH.
